Pipeline CI/CD:

Windows Server 2019 support as Microsoft Hosted Images is being deprecated. Customers using Windows Server 2019 images in their pipelines should switch to Windows Server 2022 by 30th June 2025 to avoid disruption. For more information like, the Brownout Schedule and how to identify the impacted pipelines, please follow the [blog](#).

 humboldt-red	#20250521.1 • Set up CI with Azure Pipelines Individual CI for  desarrollo May 20 <1s

Microsoft cambió las políticas y las cuentas nuevas gratuitas **NO tienen pipelines paralelos** por defecto para proyectos privados.

Por lo tanto, voy a usar Github Actions. Vamos a desplegar en Vercel.

Paso 1. Crear pipeline

Pipeline ejecutado correctamente:

Paso 2. Configurar Render
